Summary

AI-Assisted Full Stack & Flutter Developer specializing in **Vibe Coding** and **Agentic Software Workflows**. Expert at blending core software engineering principles with advanced LLM orchestration (Cursor Pro, Claude, ChatGPT) to rapidly architect, debug, test, and ship production-ready applications. Proven track record of leveraging AI tooling to accelerate development velocity, automate end-to-end data pipelines, build real-time tracking platforms, and integrate conversational AI components.

Experience

Zentosys Solutions Pvt Ltd

Pune, Maharashtra(Remote)

Software Developer Intern

07/2025 - Present

- Leveraged Cursor Pro, Claude, and ChatGPT to bypass boilerplate coding, accelerating feature delivery, debugging complex asynchronous logic, and generating technical documentation.
- Engineered key architectural modules (Region, Zone, Area, and User Management) for an enterprise Transport Management System (TMS) utilizing the MERN Stack.
- Spearheaded a Flutter-based Driver Application from scratch, integrating Firebase Realtime Database to establish near real-time location streaming and live map tracking.
- Built a reusable library of ReactJS components, optimizing frontend data-flow and reducing development cycle times across parallel modules.
- Managed features and code reviews via GitLab workflows, participating actively in sprints, standups, and rapid deployment cycles.

Insyble Tech Pvt Ltd

Yamunanagar, Haryana

Web Developer Intern

06/2025 - 08/2025

- Designed and deployed highly responsive MERN stack websites and web applications for multi-sector client projects.
- Built interactive, fluid user interfaces using ReactJS, JavaScript, TailwindCSS, and HTML5/CSS3, improving user engagement metrics.
- Partnered with backend teams to integrate REST APIs, run comprehensive validation cycles, and optimize cross-browser asset rendering.

Projects

NewsifyX.ai | AI-Powered News Automation Platform ([Live](#))

Tech Stack: MongoDB, ExpressJS, ReactJS, NodeJS, Groq API, X (Twitter) API

- Engineered an autonomous web application designed to discover, aggregate, filter, and self-publish trending global news without human intervention.
- Built intelligent backend worker scripts that handle multi-stage agentic workflows, orchestrating Groq LLM APIs to perform semantic filtering, facts-verification, and high-engagement summarizing.
- Integrated the X (Twitter) API to establish a fully hands-off posting pipeline, executing scheduled cron jobs that validate content readiness before delivery.
- Designed a clean ReactJS dashboard allowing administrators to track LLM token consumption, monitor automated queue statuses, and review system logs in real-time

AI Voice Portfolio Website ([Live](#))

Tech Stack: ReactJS, TailwindCSS, OpenAI APIs, VAPI

- Developed a responsive personal portfolio featuring a low-latency, voice-driven AI assistant designed to emulate a real-time technical interview experience.
- Integrated the VAPI platform alongside OpenAI's Whisper and GPT models to process voice inputs, achieve fluid conversational speech-to-text, and minimize latency to sub-second responses.
- Implemented dynamic system prompting and contextual retrieval windows, ensuring the assistant strictly pulls accurate information from a structured knowledge base of my resume, education, and technical projects.

SKILLS

- **Programming Languages:** JavaScript, Python, C++, C, HTML5, CSS3
- **Frameworks & Technologies:** ReactJS, NodeJS, ExpressJS, Flutter, TailwindCSS
- **Databases & Cloud:** MongoDB, PostgreSQL, Firebase (Realtime DB / Firestore), Supabase
- **AI & Agentic Engineering:** Cursor Pro, Claude Pro, ChatGPT, Gemini, Advanced Prompt Engineering, LLM System Architecture, Agentic Workflows, Tool Calling, Workflow Automation
- **Developer Tools:** Git, GitHub, GitLab, Postman, Firebase Console, VS Code

- **Core CS Fundamentals:** Data Structures & Algorithms, DBMS, OOPs, Software Engineering, Operating Systems, Computer Networks

EDUCATION

Seth Jai Prakash Mukand Lal Institute of Engineering & Technology, Radaur	
Bachelor of Technology (Computer Science Engineering) CGPA: 8.5/10	2023 - Present
DAV Cent Public School, Radaur	
12th - Non-Medical(Physics, Chemistry, Maths, English) Percentage: 94.4%	2022 - 2023
